

Chest NW101

The Chest station is a shoulder press using your own weight as resistance.

Just the right amount of resistance for safe and effective training of the shoulders, triceps and chest.

DESIGN FOR ALL

All our fitness stations use your own body weight as resistance and are challenging and effective regardless of fitness level.

As a result, the exercises can be performed without risk of injuries. The Norwell App and the QR codes on each station inspire to exercise and give full instruction of use.

HERE IS AN EXAMPLE:

Grab the handles and press forward until your arms are fully stretched. If you have a very high grip, the muscles in your shoulders are trained even more.

POSITION AND TRAINING ZONE:

SAFE DESIGN

The Norwell Outdoor Fitness stations are approved according to test protocol PPP55012 by TÜV SÜD (specially designed for testing outdoor fitness equipment). This protocol is based on parts from EN1176 for commercial playground equipment and EN957 for studio fitness equipment.

3 YEAR WARRANTY

3 years against failure due to material or manufacturing defects on all moving parts, plastic and rubber parts.

10 YEAR WARRANTY

10 years against failure due to material or manufacturing defects on springs, pipes, foundations, welds and bearings. Please contact Norwell A/S for upgrades available for sites within 5 km of saltwater.
