

Air Walker NW201

On the Air Walker you can “walk on air” – probably the greatest feeling of freedom, you can have.

Working out on the Air Walker improves the cardiovascular functions and increases the flexibility of the hip and thigh muscles.

DESIGN FOR ALL

All our fitness stations use your own body weight as resistance and are challenging and effective regardless of fitness level.

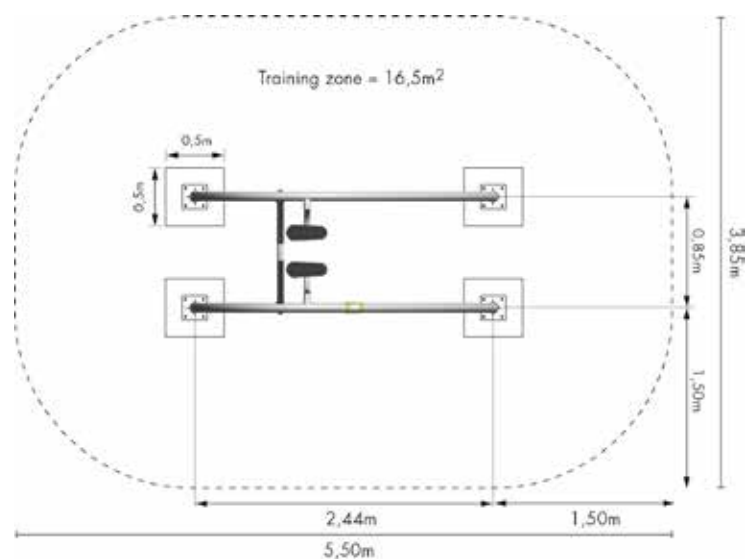

As a result, the exercises can be performed without risk of injuries. The Norwell App and the QR codes on each station inspire to exercise and give full instruction of use.

HERE IS AN EXAMPLE:

Grab the bar with both hands and take a brisk walk. Switch between a fast and a slower pace. You get all of the benefits of running but without the risk of strain and impact injuries. This exercise is good for the cardiovascular functions.

POSITION AND TRAINING ZONE:

SAFE DESIGN

The Norwell Outdoor Fitness stations are approved according to test protocol PPP55012 by TÜV SÜD (specially designed for testing outdoor fitness equipment). This protocol is based on parts from EN1176 for commercial playground equipment and EN957 for studio fitness equipment.

3 YEAR WARRANTY

3 years against failure due to material or manufacturing defects on all moving parts, plastic and rubber parts.

10 YEAR WARRANTY

10 years against failure due to material or manufacturing defects on springs, pipes, foundations, welds and bearings. Please contact Norwell A/S for upgrades available for sites within 5 km of saltwater.
