

NW107 Dual Pull Up

Norwell Dual Pull Up is used when training arms, shoulders, back and core.

Dual Pull Up has two pull-up bars in different heights: 191 cm and 223 cm. Making it possible for users to train together.

HOW TO USE:

Grab the bar palms facing forward a shoulderwidth apart. Hang with your arms fully extended. Keep your shoulders back and your core engaged. Move slowly upward until your chin is above the bar, then equally slowly downward.

Leg raise: Start by hanging from the bar, grip with palms facing forward. Then pull up your knees as close to the chest as possible, and back down. This exercise trains your abdominal.

The Norwell App and the ID-bands, including training instructions and QR codes, on each fitness station inspire to exercise and give full instruction of use.

POSITION AND TRAINING ZONE:

Trainingzone = 15m² / 161,5 ft²

DESIGN FOR ALL

All Norwell fitness stations utilize the users own body weight as resistance, therefore the exercises can be performed without risk of injuries. As a result, Norwell fitness stations are challenging and effective regardless of fitness level.

SAFE DESIGN

The Norwell Outdoor Fitness stations are tested and approved by TÜV Product Service GmbH according to DIN79000, EN16630 and AfPS GS 2014:01 PA.
